Student of Information Science with strong foundation in software engineering and programming principles. Ability to quickly learn and master new technologies, capable of working in both team and self-directed settings. To work for an organization which provides me the opportunity to improve my skills and knowledge to grow along with the organization objective.

Education

- **Atria Institute of Technology**
  Bachelor of Engineering in Information Science and Engineering
  CGPA: 9.2 (upto 5th semester)
- **Vidya Mandir Independent PU College**
  Pre-University Degree in Computer Science (PCMC)
  Graduated Pre-University with 82%
- **The New Cambridge English School (ICSE)**
  Percentage: 89.33%
  Captain of the schoolhouse team. Organized many intra school sports.

Technical Skill

- JavaScript   - HTML, CSS
- ReactJs   - MySQL
- NodeJs   - FireBase
- Java   - Git
- C++   - MongoDB

Courses and Certificates

- Hard Parts of JavaScript - Code Smith [FrontEnd Masters]
- API design using Nodejs - Scott Moss [FrontEnd Masters]
- CSS Design – FrontEnd Masters

Internship

- **EzyFi Pvt Ltd (Software Development Engineer)**
  - BazaarLive
    - An online platform for small scale sellers to showcase and sell their products. Developed major part of the frontend and Firebase functions which improved scalability of backend code
    - Technology Stack: ReactJS, CSS, NodeJS, Firebase
  - Audio-Text
    - Developed real time audio-text converter using Deepgram's API and websockets
    - Technology Stack: NodeJs, MongoDB
- **Technoboot (Role: Backend Engineer)**
  - Laundry System
    - Actively contributed to laundry system application (Backend), which is an application where customers can get their clothes steamed, dried etc and have their clothes delivered to their home
    - Technology Stack: Nodejs, MongoDB

Projects

- **University Exam Management (Academic Project)**
  - Developed an application that stores details of exams conducted and to be conducted in a university
  - Technology Stack - HTML, CSS, JavaScript

- **Web chat application (Personal Project)**
  - Basic one to one web chat application which supports both group and individual conversation over web-sockets
  - Technology Stack – ReactJS, NodeJS, Firebase, CSS

- **Netflix Clone (Personal Project)**
  - Simple clone of the famous movie streaming application (Frontend)
  - Technology Stack – ReactJS, CSS

- **Store Management (Personal Project)**
  - Implemented User Login Screen [Basic Authentication].
  - Screen to display Product Catalogue with basic user interactions.
  - Implemented backend to add products to cart and checkout, bill generation, admin to add out of stock Products to inventory.
  - Technology Stack: ReactJS, NodeJS, MySQL

Extracurricular Activities

- **Scholastic Achievement:**
  - Runner up in "Solve for India Hackathon" conducted by the college
  - Winner of "Compilers" competition conducted during the technical fest at the college

- **Position of Responsibility:**
  - Chief Designer at IEEE ITS chapter of Atria Institute of Technology
  - Organizer at "Sapthrang" - Cultural Fest at Atria Institute of Technology
  - Volunteered with NGO in planting trees and painting government schools.

Language Proficiency : English, Kannada, Hindi
